COURTESY OF THE FLOOR

Jack Williams, 360 Corinne Street, Johnstown, addressed Council by first thanking Attorney Andrews for responding to his letter of December 4, 2015. He noted his understanding is that the public hearing will not occur tonight, nor will final adoption of the amendment.

Attorney Andrews explained that the Special Meeting will consider the amendment to the budget. Then assuming that passes the budget, it will be put on for public inspection pursuant to the Charter. An advertisement will be placed tomorrow, December 10, 2015, in the Tribune-Democrat in order to meet the ten-day advertisement requirement. A Special Meeting with regard to adoption of the budget will be held on December 22, 2015.

Mr. Williams stated the Charter is clear in what is required with regard to the budget and Bill No. 25 as presented on November 10, 2015. He noted that Counsel has to announce what those amendments are by line item, description and the change, either decreasing or increasing. Another issue concerning Mr. Williams is the budget includes the \$1.1 million, the local service tax which has to be approved by the court. Act 199, which authorizes municipalities to raise that to \$156, stipulates how that money is supposed to be used. Mr. Williams asked Council to identify what portion of that would be going into the categories, noting specifically that it states 25 percent must go in to emergency services. He stated by his calculation that amounts to just less than \$300,000. He believes that Council has the obligation to let the public know if emergency services is going to be the recipient of such funds.

Attorney Andrews explained that the finance director will review the changes to the budget, which will be done publicly later in the meeting. He further explained that Council will comply with the statute with regard to expenditures.

Bethany Peracchino, Finance Director, read into the record the following budget changes: The amendment that occurred at the November meeting, the LST, was originally at \$1,375,000 decreased to \$1,117,500. So the \$257,500 reduction in revenue was due to the increase to the \$21,000 threshold for the LST. So in order to make up that revenue, there was mainly a reduction in the expenditures.
